INTRODUCTION

The Wyoming Cancer Surveillance Program is a population-based statewide cancer incidence reporting system that collects, analyzes, and disseminates information on all new cases of cancer. A statewide cancer registry is the foundation for cancer prevention and control. This central repository of information is a valuable and essential tool for identifying populations at high risk for cancer, monitoring of cancer incidence trends and mortality, facilitating studies related to cancer prevention, evaluating cancer control initiatives, planning health care delivery systems, and developing educational awareness programs. It is dependent on complete, timely and accurate reporting.

The Wyoming Cancer Surveillance Program Oncology Data Reporting Manual has been developed to assist and direct healthcare providers in reporting cancer cases to the central cancer registry. This manual has been implemented due to the requirements from the National Program of Cancer Registries (NPCR), Centers for Disease Control and Prevention (CDC); North American Association of Central Cancer Registries (NAACCR); Surveillance, Epidemiology, and End Results Program (SEER) of the National Cancer Institute (NCI); and the American College of Surgeons (ACoS).

The Wyoming Cancer Surveillance Program (WCSP) is a statewide population-based cancer registry. Our mission is to maintain a nationally comparable population-based cancer incidence, follow-up, treatment and mortality monitoring system that collects, analyzes and disseminates information on all new cancer cases in Wyoming. In operation since 1966, the WCSP has been collecting cancer data on all cancer cases diagnosed or treated in Wyoming since 1962. The WCSP monitors cancer incidence through pathology reports and uniform reporting of information by health care providers in Wyoming. In 1977, a law was passed requiring reporting by all entities detecting, diagnosing and treating cancer cases in Wyoming (statute 35-1-240[b] and public law 102-515).

In 1995, the WCSP became member of the National Program of Cancer Registries (NPCR). The NPCR was established by Congress through the Cancer Registries Amendment Act in 1992, and administered by the Centers for Disease Control and Prevention (CDC), the NPCR collects data on the occurrence of cancer; the type, extent, and location of the cancer; and the type of initial treatment. The CDC provides funding for states to implement and enhance existing registries to meet national standards for completeness, timeliness and data quality.

In 1987, the first employee of the WCSP became a member of the North American Association of Central Cancer Registries (NAACCR). NAACCR is a professional organization that develops and promotes uniform data standards for cancer registration; provides education and training; certifies population-based registries; aggregates and publishes data from central cancer registries and promotes the use of cancer surveillance data and systems for cancer control and epidemiologic research, public health programs and patient care to reduce the burden of cancer in North America.

The following sources were used in the preparation of this manual:

- The 2007 SEER Program Coding and Staging Manual (SPCSM) with 2008 Revisions, National Cancer Institute, NIH (Also known as the 2008 Coding and Staging Manual on CD-ROM) Updated December 22, 2008 Pub. No. 07-5581, Bethesda, MD, 2004.
- Standards of the Commission on Cancer Volume II: Facility Oncology Registry Data Standards (FORDS). Chicago: American College of Surgeons Commission on Cancer, January 2003, revised 2/13/09.
- NAACCR Standards for Cancer Registries, Volume II, Data Standards and Data Dictionary, Eleventh Edition, Record Layout Version 12.
- Source: Cancer Reporting in California: Abstracting and Coding Procedures for Hospitals (California Cancer Reporting System Standards, Vol. I) updated May 2007. California Cancer Registry, Public Health Institute.
- International Classification of Diseases for Oncology. 3rd Edition (ICD-O-3). Geneva: World Health Organization, 2000.
- Wyoming's statute W.S. 35-1-240 (b) and P.L. 102-515.
- SEER*Rx Version 1.3.0. The Cancer Registrar's Interactive Antineoplastic Drug Database. U.S. Department of Health and Human Services, Public Health Services, National Institutes of Health, Bethesda, MD, 2005 (applicable for cases diagnosed January 1, 2005 forward). Updated 5/01/09.

- Multiple Primary and Histology Coding Rules January 1, 2007, revised May 6, 2008, National Cancer Institute. Bethesda, MD.

GENERAL INSTRUCTIONS

The following information provides some basic rules regarding cancer reporting to the Wyoming Cancer Surveillance Program.

Hospitals are required by Wyoming (statute 35-1-240[b] and public law 102-515) to report and/or abstract inpatient and outpatient cancer cases. Inclusion of outpatients was effective with January 2000 cases.

All cases diagnosed and/or treated for cancer in a Wyoming medical facility on or after January 1, 1996, must be abstracted and/or reported.

The following information provides some basic rules regarding cancer reporting to the Wyoming Cancer Surveillance Program.

A. Healthcare providers including, but not limited to, hospitals, ambulatory surgery centers, laboratories, radiation therapy facilities, oncology facilities and physician offices are required to report cancer cases to the Wyoming Cancer Surveillance Program. Hospitals need to abstract and/or report inpatient and outpatient cancer cases.

B. All required data items should be collected and reported to the Wyoming Cancer Surveillance Program. The list is based on the rules and regulations of NPCR and NAACCR.

C. The ICD-O-3 coding scheme must be used for site and histology for cases diagnosed on or after January 1, 2001. The ICD-O-2 coding scheme must be used for cases diagnosed prior to January 1, 2001.

D. The Collaborative Staging Manual is to be used for cases diagnosed on or after January 1, 2004. The SEER Summary Staging Manual – 2000 is to be used for staging for cases diagnosed between January 1, 2001 and December 31, 2003. The SEER Summary Staging Guide, 1986 reprint, is to be used for cases diagnosed prior to January 1, 2001.

E. The Multiple Primary and Histology Coding Rules Manual is to be used for cases diagnosed January 1, 2007 and later.

F. All cases diagnosed and/or treated for cancer in Wyoming medical facilities on or after January 1, 1996, must be abstracted and reported to the Wyoming Cancer Surveillance Program.

For ALL reporting facilities:

Benign brain and Central Nervous System (CNS) cases are reportable if diagnosed on or after January 1, 2004.

Incomplete abstracts (i.e., abstracts with required fields not completed) will be returned to the facility. The facility must supply data for the missing required fields and re-submit the records to WCSP.

The following coding manuals are required to complete case reporting for WCSP. Information has been provided on how to download these manuals if not already on site at the reporting facility.

1. Facility Oncology Registry Data Standards (FORDS)

<http://www.facs.org/cancer/coc/fords/2009/fords2009.pdf>

Use this manual to determine case eligibility, coding principles and coding instructions.

Site-specific surgery information

<http://www.facs.org/cancer/coc/fordsmanual.html>

Use this section of the FORDS Manual to identify the correct surgery options for individual sites and choose the correct code when abstracting electronically.

2. Collaborative Stage Manual (CS) Versions 1 and 2.

<http://www.cancerstaging.org/cstage/manuals.html>

The Collaborative Staging Manual must be used to stage cases diagnosed on or after January 1, 2004. The SEER Summary Staging Manual 2000 is to be used for cases diagnosed between January 1, 2001 and December 31, 2003. The SEER Summary Staging Guide 1977 is to be used for cases diagnosed prior to January 1, 2001. See Appendix V for a complete list of websites where these manuals are available.

3. Multiple Primary and Histology Coding Rules (MP/H)

<http://www.seer.cancer.gov/tools/mphrules/download.html>

Use this coding manual to determine the number of reports needed to complete for each case.

4. Data Collection of Primary Central Nervous System Tumors

<http://www.cdc.gov/cancer/npcr/training/pdfs/braintumorguide.pdf>

Use this manual to determine reportability and correct coding for benign brain and CNS tumors (reportable to WCSP beginning January 1, 2004).

5. SEER*Rx - Interactive Antineoplastic Drugs Database

<http://seer.cancer.gov/tools/seerrx/index.html>

Use this tool to determine correct coding of oncology drug and regimen treatment categories.

REPORTING RESPONSIBILITIES

Completed cases should be submitted to the Central Registry within six months after date of first contact for cancer diagnosis and/or treatment with your facility.

Recurrences (with some exceptions) and metastatic sites (for primary cases previously reported) are not reportable; however, it is important for those healthcare providers that maintain their own abstracting to document the recurrence or metastatic information via an update in their cancer registry database. Patients presenting with metastatic disease or recurrence for which the original primary diagnosis was NOT reported by the hospital are reportable (the original primary diagnosis is reportable, not the recurrence or metastases).

Clinics/physician offices are required to report all active primary cancers for which treatment is provided for diagnoses on or after 1992. If treatment is not provided, the cancer must still be reported if the patient is NOT referred to a Wyoming hospital within two months from the time first seen at the facility.

All pathology reports with a diagnosis of cancer that are read by hospital pathology laboratories should be forwarded to the WCSP. The Wyoming Cancer Surveillance Program will be responsible for contacting the physicians on the pathology reports to obtain the information needed to include the case into the registry database.

It is important for all reporting facilities to submit data in a timely manner. This will ensure that all data will be processed at the time of data merging and de-duplication. The requirements for data submissions are as follows: Annual caseload >100 Monthly and Annual caseload <100 Monthly or quarterly.

All facilities submitting data electronically are required to perform EDITS on these cases to detect any errors that may exist in the data. Upon arrival to the Wyoming Cancer Surveillance Program, all files will undergo additional edit checks. If there are an unacceptable amount of errors, the file will be returned to the facility along with the error summary to be corrected before it can be resubmitted to the central registry. The reporting facility has a maximum of 14 days to return the corrected, error free data to the registry. The WCSP will also notify the facility either by phone or e-mail that cases are being sent back and will provide training to the facility so there are no more repeat errors.

If after submission to the WCSP, additional information is learned from the patient's chart that would change specific data items, please call Wyoming Cancer Surveillance Program and report changes. For changes to more than five cases, make corrections to cases and resubmit via a secure email, a password protected encrypted CD, or cases can be included with next submission. If a pathology report is amended, the amended report should be faxed to Wyoming Cancer Surveillance Program and changes will be made. For paper abstract form, complete the cancer form with the new information and write, "AMENDED" across the form in red.

NON-REPORTABLE FILE

All facilities are requested to submit a list of non-reportable cancer cases to the WCSP twice a year, January and October. These cases are to be documented and submitted electronically on an Excel spreadsheet. The following information should be included: Facility Name and Number, months/year being submitted, Patient Name, last and first, Social Security Number, Cancer Diagnosis (ICD-9 code), Cancer Site, Date of Birth, and Date of Diagnosis

DATA SUBMISSION PROCEDURES

Electronic Data Transmissions

Electronic data must be sent using the NAACCR Version 12 layout. Data should be electronically submitted to the WCSP via a secure email, a password protected encrypted CD, or in another manner that has been pre-approved and coordinated with the WCSP.

FOLLOW-UP INFORMATION

Follow-up information is required by Wyoming Cancer Surveillance Program. Hospitals and other healthcare providers are requested to review the patient's medical record on an annual basis for:

- Patient status
- Cancer status
- Date of death
- Place of death if known

The WCSP uses a variety of methods to collect vital status follow-up information for cases not known to be deceased. The primary follow-up method involves linking the Registry case file to a death certificate file provided by the Wyoming Department of Health - Bureau of Vital Records and Health Statistics.

When a Wyoming resident is diagnosed with cancer and it is reported to the Wyoming Cancer Surveillance Program (WCSP), the case is entered into the main database. Fourteen (14) months later, the follow-up process begins and will continue on a fourteen (14) month interval cycle for the rest of that person's life. We strive to maintain the most accurate, current and complete data possible.

These data are reported annually to the National Program of Cancer Registries (NPCR) which is administered by the Centers for Disease Control and Prevention (CDC), and to the North American Association of Central Cancer Registries (NAACCR).

According to the CDC, "Data collected by state cancer registries help public health professionals understand and address the nation's cancer burden. Vital information about cancer cases and cancer deaths improves health agencies' ability to report on cancer trends, assess the impact of cancer prevention and control efforts, participate in research, and respond to reports of suspected increases in cancer occurrence." While the gathered follow-up data are primarily used for incidence and mortality statistics at the state level, the potential is there for a multitude of other valuable uses.

WCSP Follow-Up Process:

- Fourteen (14) months after the date of last contact the WCSP staff sends an initial follow-up request for information from the patient's primary physician of record.
- In the event that the primary physician does not return a response; the WCSP initiates a secondary follow-up system. A letter is generated that contacts, in sequential order, the next four (4) physicians or medical entities identified in the patient's medical information. Once a valid response with pertinent follow-up information is received the process is suspended until the next follow up period for the identified patient.
- Each patient is followed at fourteen (14) month intervals until the WCSP has been notified of their demise.

CONFIDENTIALITY

According to State Cancer Law (statute 35-1-240[b] and public law 102-515), information accumulated and maintained in the Wyoming Cancer Surveillance Program (WCSP) shall not be divulged except as statistical information which does not identify individuals and for purposes of such research as approved by the Wyoming State Board of Health. All information reported to the Department of Health shall be confidential and shall not be disclosed under any circumstances except (1) to other state cancer registries with which the Department of Health has agreements that insure confidentiality; (2) to other state health officials who are obligated to keep such information confidential; and (3) to approved cancer research centers under specific conditions where names and identities of the individuals are appropriately protected, and when such research is conducted for the purpose of cancer prevention, control and treatment.

WCSP staff is required to sign confidentiality agreements and follow confidentiality procedures as stated in the Wyoming Cancer Surveillance Program Central Cancer Registry Policy and Procedure Manual.

HIPAA allows reporting of cancer cases to the Wyoming Cancer Surveillance Program, due to the fact that the registry is considered as a public health authority. HIPAA allows facilities to continue to report cancer incidence data to the registry in compliance with the current state statutes

Written informed consent is not required from the cancer patient under HIPAA or a Business Associate Agreement, but healthcare providers must document that reporting is occurring.

DISCLOSURE OF DATA

According to Public Law 102-515 Chapter 4, Section 1. Disclosure of Data Confidential Case Data. The protection and release of confidential statistical records shall be in accordance with W.S. 16-4-201, et seq, the Wyoming Public Records Act, and the Wyoming Department of Health Information Practices Rules.

Non-Confidential Statistical Data. Non-confidential statistical data shall be released to all hospitals, physicians, or other healthcare providers and interested persons in compliance with the latest written policies set forth by the Wyoming State Epidemiologist.

The Wyoming Cancer Surveillance Program may exchange patient-specific information with the reporting facility or clinical facility for the purpose of completing a case record, provided these facilities comply with all Wyoming Cancer Surveillance Program confidentiality policies.

To achieve complete case ascertainment, the Wyoming Cancer Surveillance Program may exchange patient-specific information with other state cancer registries if reciprocal data sharing agreements and confidentiality provisions are in place.

AUDITS

A Wyoming Cancer Surveillance Program Certified Tumor Registrar (CTR) will conduct annual casefinding and quality assurance (re-abstracting) audits as required by NPCR.

All Wyoming hospitals must be audited by June 2012; Wyoming Cancer Surveillance Program will begin audit procedures in 2010. The purpose of these audits is to ensure that all reportable cases are being identified and reported to the Wyoming Cancer Surveillance Program and that all information submitted is of good quality and accurately coded.

The audit will consist of two parts:

Casefinding – Inpatient/Outpatient hospital disease indices, pathology reports and other pertinent casefinding documents are reviewed and all reportable codes are compared with the WCSP database for the facility being audited. All cases that are not identified in the database will be reconciled by the registrar/HIM Director at the audited facility. The registrar/HIM Director will have a minimum of 30 days to complete the reconciliation process and return an updated list to WCSP with reasons why the identified cases were not abstracted and/or reported or if the cases are reportable and were missed during the original abstracting period. Cases that are reportable but were missed must be abstracted into their database and submitted to WCSP.

All cases diagnosed before January 1, 1996 or cases diagnosis/treatment was not performed at the reporting facility are removed from the reconciliation log and a percentage is calculated at that time. A report is sent to the facility cancer registry director and/or administrator of the facility that summarizes the percentage of case ascertainment and provides suggestions to help improve the case ascertainment process.

Re-abstraction – (Applies to all facilities, contracted agencies or individuals that perform abstracting and/or reporting to the WCSP.) The re-abstracting audit consists of Certified Tumor Registrars re-abstracting specific required fields on a small sample of cases from a pre-determined diagnosis year, and comparing results to the original abstracted data submission. Discrepancies are discussed with the hospital reporters; abstracting and coding guidelines are reinforced. Attempts are always made during the resolution process to determine if reporters had additional information not available to the auditors.

A report will be provided to the facility cancer registry director and/or administrator, which summarize the percentage of case ascertainment or completeness and any suggestions that would help to improve the reporting process.

CASE ASCERTAINMENT

CASEFINDING TECHNIQUES

ALL HEALTHCARE PROVIDERS must perform case finding to identify all patients with a new diagnosis of cancer or history of cancer which meets the case eligibility criteria. Every patient; inpatient and/or outpatient, who is diagnosed with and/or treated for a reportable diagnosis, must be reported by all healthcare providers.

Cases can be identified via many sources. The pathology reports can provide cases diagnosed by histology, cytology, hematology, bone marrow or autopsy. Other sources are clinic admission logs, daily discharges, disease indices, radiology reports, inpatient and outpatient surgery logs, radiotherapy consults, treatment reports and logs, oncology clinic treatment reports and logs. The pathology reports should never be the only source of casefinding, due to the fact that cases not diagnosed, only treated at your facility may not have a path report. Oncology clinic logs will be a good source in locating these cases. Cases not diagnosed histologically will be either confirmed by the physician in the patient's record or on the medical record disease index. A system should be established that would enable you to receive a copy of the disease index.

At a minimum, a system must be established to create a complete disease index of all reportable conditions as identified on the "Comprehensive Reportability List" on page 19.

ALL HEALTHCARE PROVIDERS shall provide to the WCSP, a disease index of cancer cases identified by ICD-9 codes as identified in the "Comprehensive Reportability List" on page 19 of this document within thirty (30) days of written request by the WCSP. All patients identified as having a history of a specific disease as identified on the "Comprehensive Reportability List" on page 19 are to also be included on the disease index.

SUGGESTED BEST PRACTICE FOR CREATING A DISEASE INDEX:

A disease index should be defined to identify all inpatient, outpatient, emergency department and ancillary services provided for patients with a primary discharge diagnosis and/or billing diagnosis with any ICD-9 code as identified on the "Comprehensive Reportability List" on page 19. The Disease Index should be created in, or exported to, an Excel file that can be provided to the WCSP. Submission of the Disease Index must occur via a secure email or password protected encrypted CD.

At a minimum the Disease index must include the following data elements:

- Medical Record Number
- Patient Name
- Age
- Date of Birth
- Date of Service
- Type of Service/Service Code
- First ten (ten) ICD-9 diagnosis codes as identified on the discharge diagnosis and/or billing diagnosis.

CASE ELIGIBILITY BASED ON DIAGNOSTIC TERMS

The American College of Surgeons Commission on Cancer (CoC) requires registries in approved hospital programs to accession, abstract, and conduct follow-up activities for required tumors diagnosed and/or initially treated at the abstracting facility. The tumors must meet the criteria for analytic cases (classes of case 0, 1, or 2), and pathologically and clinically diagnosed inpatients and outpatients must be included.

For diagnoses made beginning in 2006 the following differences in reportability exist between the COC and the WCSP. All facilities in Wyoming are required to report WCSP-reportable cases to the central registry regardless of their reportability status according to the Commission on Cancer standards and guidelines.

- Non-analytic cases of Class 3, 4, 5, 6, 7 and 9 are required to be reported to the WCSP. The WCSP will follow back to the ordering physician for complete information when necessary.
- Cases in which the patient receives only transient first-course treatment while temporarily in Wyoming are reportable to the WCSP.

As part of the central cancer and hospital cancer registry case-finding activities, all pathology reports should be reviewed to confirm whether a case is required. If the terminology is ambiguous, use the following guidelines to determine whether a particular case should be included.

LIST OF AMBIGUOUS TERMS

Lists of Ambiguous Terms		
Terms that constitute a diagnosis; case should be reported		
Apparent (ly)	Favors	Suspect (ed)
Appears	Malignant appearing	Suspicious (for)
Comparable with	Most likely	Typical of
Compatible with	Presumed	
Consistent with	Probable	
Consistent with Tumor (beginning with 2004 diagnoses and only for C70.0–C72.9, C75.1–75.3)		
Neoplasm or Tumor (beginning with 2004 diagnoses and only for C70.0-C72.9, C75.1 C75.3)		
Terms that DO NOT constitute a diagnosis; case should NOT be reported**		
Approaching	Potentially malignant	Suggests
Cannot be ruled out	Questionable	Very close to
Equivocal	Rule out	Worrisome
Possible		

NOTE:

Malignant neoplasms of the skin of genital sites are reportable. These sites include: vagina (C529), clitoris (C512), vulva (C519), prepuce (C600), penis (C609), and scrotum (C632).

Reportable skin tumors such as adnexal carcinomas (carcinomas of the sweat gland, ceruminous gland, and hair follicle), adenocarcinomas, lymphomas, melanomas, sarcomas, and Merkel cell tumor must be reported regardless of site. Any carcinoma arising in a hemorrhoid is reportable since hemorrhoids arise in mucosa, not in skin.

NON-REPORTABLE NEOPLASMS

- Basal cell carcinoma (8090–8110) of the skin (C440-C449) except genital sites
- Basal and squamous cell carcinoma (8070–8110) of skin of anus (C445)
- Epithelial carcinomas (8010–8046) of the skin (C440-C449)
- Papillary and squamous cell carcinomas (8050–8084) of the skin (C440-C449) except genital sites
- Malignant neoplasms, NOS (8000–8005) of the skin (C440-C449)
- In situ neoplasms of cervix regardless of histology (behavior of /2; C539)
- Intraepithelial neoplasms of the cervix (CIN) (8077/2; C539) or prostate (PIN)(8148/2; C619)
- Borderline cystadenomas (8442, 8451, 8462, 8472, and 8473) of the ovaries (C569) with behavior code 1 are not collected as of January 01, 2001
- Cases diagnosed prior to 1995 are no longer required to be reported.
- Benign and borderline tumors of the cranial bones (C410)
- Cysts or lesions of the brain or CNS diagnosed January 01, 2004 or later which have no ICDO- 3 morphology code

2014 ICD-9-CM Casefinding List

International Classification of Diseases, 9th Revision, Clinical Modification, Sixth Edition, 2014

COMPREHENSIVE ICD-9-CM Casefinding Code List for Reportable Tumors (EFFECTIVE DATE: 1/1/2014) Please refer to your standard setter(s) for specific reporting requirements before using the Casefinding List	
ICD-9-CM Codes	Explanation of ICD-9-CM Codes
140._ – 172._, 174._ – 209.36, 209.7_	Malignant neoplasms (excluding category 173), stated or presumed to be primary (of specified sites) and certain specified histologies ¹
173.00, 173.09	Unspecified/other malignant neoplasm of skin of lip
173.10, 173.19	Unspecified/other malignant neoplasm of eyelid, including canthus
173.20, 173.29	Unspecified/other malignant neoplasm of ear and external auricular canal
173.30, 173.39	Unspecified/other malignant neoplasm of skin of other/unspecified parts of face
173.40, 173.49	Unspecified/other malignant neoplasm of scalp and skin of neck
173.50, 173.59	Unspecified/other malignant neoplasm of skin of trunk, except scrotum
173.60, 173.69	Unspecified/other malignant neoplasm of skin of upper limb, including shoulder
173.70, 173.79	Unspecified/other malignant neoplasm of skin of lower limb, including hip
173.80, 173.89	Unspecified/other malignant neoplasm of other specified sites of skin
173.90, 173.99	Unspecified/other malignant neoplasm of skin, site unspecified
225.0 – 225.9	Benign neoplasm of brain and spinal cord neoplasm
227.3, 227.4	Benign neoplasm of pituitary gland, craniopharyngeal duct (pouch) and pineal gland

228.02	Hemangioma; of intracranial structures
228.1	Lymphangioma, any site (<i>Note: Reportable tumors include only lymphangioma of the brain, other parts of nervous system and endocrine gland</i>)
230.0-234.9	Carcinoma in situ
237.0-237.1	Neoplasm of uncertain behavior of endocrine glands and nervous system: pituitary gland, craniopharyngeal duct and pineal gland
237.5, 237.6, 237.9	Neoplasm of uncertain behavior of endocrine glands & nervous system: brain & spinal cord, meninges, endocrine glands & other & unspec. parts of nervous system
238.4	Polycythemia vera
238.7_	Other lymphatic and hematopoietic diseases
239.6, 239.7	Neoplasms of unspecified nature, brain, endocrine glands and other parts of nervous system
273.3	Macroglobulinemia (Waldenstrom's macroglobulinemia)
277.89	Other specified disorders of metabolism (<i>Reportable includes terms: Hand-Schuller-Christian disease; histiocytosis (acute)(chronic); histiocytosis X (chronic)</i>)

1Note: Pilocytic/juvenile astrocytoma M-9421 moved from behavior /3 (malignant) to /1 (borderline malignancy) in ICD-O-3. However, SEER registries will CONTINUE to report these cases and code behavior as /3 (malignant)

NOTE: Cases with these codes should be screened as registry time allows. Experience in the SEER registries has shown that using the supplemental list increases casefinding for benign brain and CNS, hematopoietic neoplasms, and other reportable diseases.

SUPPLEMENTAL LIST ICD-9-CM (EFFECTIVE DATES 1/1/14)	
ICD-9-CM CODE*	EXPLANATION OF ICD-9-CM CODE
042	Acquired Immunodeficiency Syndrome (AIDS) <i>Note: Screen 042 for history of cancers with HIV/AIDS</i>
079.51-079.53	Retrovirus (HTLV, types I, II and 2)
173.01, 173.02	Basal and squamous cell carcinoma of skin of lip

173.11, 173.12	Basal and squamous cell carcinoma of eyelid, including canthus
173.21, 173.22	Basal and squamous cell carcinoma of ear and external auricular canal
173.31, 173.32	Basal and squamous cell carcinoma of skin of other and unspecified parts of face
173.41, 173.42	Basal and squamous cell carcinoma of scalp and skin of neck
173.51, 173.52	Basal and squamous cell carcinoma of skin of trunk, except scrotum
173.61, 173.62	Basal and squamous cell carcinoma of skin of upper limb, including shoulder
173.71, 173.72	Basal and squamous cell carcinoma of skin of lower limb, including hip
173.81, 173.82	Basal and squamous cell carcinoma of other specified sites of skin
173.91, 173.92	Basal and squamous cell carcinoma of skin, site unspecified
209.40 - 209.69	Benign carcinoid tumors
210.0 – 229.9	Benign neoplasms (except for 225.0-225.9, 227.3, 227.4, 228.02, 228.1, which are listed in the Reportable list) <i>Note: Screen for incorrectly coded malignancies or reportable by agreement tumors</i>
235.0-236.99	Neoplasm of uncertain behavior of adrenal gland, paraganglia and other and unspecified endocrine glands <i>Note: screen for incorrectly coded malignancies or reportable by agreement tumors</i>
237.2-237.4	Neoplasm of uncertain behavior of adrenal gland, paraganglia and other and unspecified endocrine glands <i>Note: screen for incorrectly coded malignancies or reportable by agreement tumors</i>
237.7_	Neurofibromatosis and Schwannomatosis
238.0-239.9	Neoplasms of uncertain behavior (except for 238.4, 238.71-238.79, 239.6, 239.7, which are listed in the reportable list) <i>Note: Screen for incorrectly coded malignancies or reportable by agreement tumors</i>
259.2	Carcinoid syndrome
273.0	Polyclonal hypergammaglobulinemia (<i>Note: screen for blood disorders due to neoplasm</i>)
273.1	Monoclonal gammopathy of undetermined significance (9765/1)

	<i>Note: Screen for incorrectly coded Waldenstrom macroglobulinemia or progression</i>
273.2	Other paraproteinemias
273.8, 273.9	Other and unspecified disorders of plasma protein metabolism <i>Note: includes plasma disorders due to neoplastic disease</i>
275.42	Hypercalcemia (<i>Note: Includes hypercalcium due to neoplastic disease</i>)
277.88	Tumor lysis syndrome (following neoplastic chemotherapy)
284.1_	Pancytopenia (<i>Note: screen for anemia disorder related to neoplasm</i>)
285.22	Anemia in neoplastic disease
285.3	Anemia due to antineoplastic chemotherapy
287.39, 287.49, 287.5	Secondary, other primary and unspecified thrombocytopenia <i>Note: Screen for incorrectly coded thrombocythemia</i>
288.03	Drug induced neutropenia (note: screen for anemia disorder related to neoplasm)
288.3	Eosinophilia (<i>Note: Code for eosinophilia (9964/3). Not every case of eosinophilia is with a malignancy. Diagnosis must be "Hypereosonophilic syndrome" to be reportable.</i>)
288.4	Hemophagocytic syndrome
338.3	Neoplasm related pain (acute)(chronic)
528.01	Mucositis due to antineoplastic therapy
530.85	Barrett's esophagus (High grade dysplasia of esophagus)
569.44	Dysplasia of anus (Anal intraepithelial neoplasia [AIN I and II])
602.3	Dysplasia of prostate (Prostatic intraepithelial neoplasia [PIN I and II])
622.10-622.12	Dysplasia of cervix, unspecified and CIN I, CIN II
623.0	Dysplasia of vagina (Vaginal intraepithelial neoplasia [VAIN I and II])
624.01, 624.02	Vulvar intraepithelial neoplasia: unspecified, VIN I and VIN II
630	Hydatidiform mole (<i>Note: benign tumor that can become malignant. If malignant, it should be reported as Choriocarcinoma (9100/3) with malignancy code in 140-209 range</i>)
780.79	Neoplastic (malignant) related fatigue

785.6	Enlargement of lymph nodes
789.51	Malignant ascites
790.93	Elevated prostate specific antigen (PSA)
793.8_	Nonspecific (abnormal) findings on radiological & examination of body structure (breast)
795.0_ - 795.1_	Papanicolaou smear of cervix and vagina with cytologic evidence of malignancy
796.7_	Abnormal cytologic smear of anus and anal HPV
795.8_	Abnormal tumor markers; Elevated tumor associated antigens [TAA]
963.1	Poisoning by primarily systemic agents: antineoplastic and immunosuppressive drugs
990	Effects of radiation, unspecified (radiation sickness)
999.3_	Complications due to central venous catheter
E858.0	Accidental poisoning by other drugs: Hormones and synthetic substitutes
E858.1	Accidental poisoning by other drugs: Primary systemic agents
E858.2	Agents primarily affecting blood constituents
E873.2	Failure in dosage, overdose of radiation in therapy (radiation sickness)
E879.2	Overdose of radiation given during therapy (radiation sickness)
E930.7	Adverse reaction of antineoplastic therapy-Antineoplastic antibiotics
E932.1	Adverse reaction to antineoplastic therapy-Androgens and anabolic congeners
E933.1	Adverse effect (poisoning) of immunosuppressive drugs
V10.0_ – V10.9_	Personal history of malignancy <i>Note: Screen for recurrences, subsequent primaries, and/or subsequent treatment</i>
V12.41	Personal history of benign neoplasm of the brain
V13.89	Personal history of unspecified. malignant neoplasm, history of in-situ neoplasm of other site
V15.3	Other personal history presenting hazards to health or (therapeutic) radiation

V42.81, V42.82	Organ or tissue replaced by transplant: Bone marrow, peripheral stem cells
V51.0	Encounter for breast reconstruction following mastectomy
V58.0, V58.1_	Encounter for radiotherapy, chemotherapy, immunotherapy
V66.1, V66.2	Convalescence and palliative care following radiotherapy, chemotherapy
V66.7	Encounter for palliative care
V67.1, V67.2	Follow up examination: following radiotherapy or chemotherapy
V71.1	Observation for suspected malignant neoplasm
V76._	Special screening for malignant neoplasms
V86._	Estrogen receptor positive status [ER+], negative status [ER-]
V87.41	Personal history of antineoplastic chemotherapy
V87.43	Personal history of estrogen therapy
V87.46	Personal history of immunosuppression therapy

**International Classification of Diseases, 9th Revision, Clinical Modification, Sixth Edition, 2014*

PATIENT DEMOGRAPHICS

PATIENT ADDRESS AND RESIDENCY RULES

General Coding Instructions for Place of Residence at Diagnosis

The Wyoming Cancer Surveillance Program collects information on place of residence at diagnosis. Rules for determining residency at diagnosis are either identical or comparable to rules used by the U.S. Census Bureau, to ensure comparability of definitions of cases (numerator) and the population at risk (denominator).

Coding Priorities/Sources

1. Code the street address of usual residence as stated by the patient. Definition: U.S. Census Bureau Instructions: “The place where he or she lives and sleeps most of the time or the place the person says is his or her usual home.”
2. Post Office Box is not a reliable source to identify the residency at diagnosis. Post office box addresses do not provide accurate geographic information for analyzing cancer incidence. Use the post office box address only if no street address information is available after follow-back.
3. Use residency information from a death certificate only when residency from other sources is coded as unknown. Review each case carefully and apply the U.S. Census Bureau rules for determining residence. The death certificate may give the person’s previous home address rather than the nursing home address as the place of residence; use the nursing home address as the place of residence.
4. Do NOT use legal status or citizenship to code residence.

Persons with No Usual Residence

Homeless people and transients are examples of persons with no usual residence. Code the patient’s residence at diagnosis such as the shelter or hospital where diagnosis was confirmed.

Temporary Residents of the Wyoming Area Code the place of usual residence rather than the temporary address for: Migrant workers Educators temporarily assigned to a university in the Wyoming area Persons temporarily residing with family during cancer treatment.

Military personnel on temporary duty assignments (TDY) Boarding school students below college level (code the parent’s residence)

Code the residence where the student is living while attending college.

Code the address of the institution for Persons in Institutions. U.S. Census Bureau definition: “Persons under formally authorized, supervised care or custody are

residents of the institution.” Persons who are incarcerated Persons who are physically handicapped, mentally retarded, or mentally ill who are residents of homes, schools, hospitals or wards Residents of nursing, convalescent, and rest homes Long-term residents of other hospitals such as Veteran’s Administration (VA) hospitals

Persons in the Armed Forces and on Maritime Ships (Merchant Marine)

Armed Forces

For military personnel and their family members, code the address of the military installation or surrounding community as stated by the patient.

Personnel Assigned to Navy, Coast Guard, and Maritime Ships

The U.S. Census Bureau has detailed rules for determining residency for personnel assigned to these ships. The rules refer to the ship’s deployment, port of departure, destination, and homeport. Refer to U.S. Census Bureau Publications for detailed rules: <http://www.census.gov>

County-Current and County at DX

NAACCR has adopted the Federal Information Processing Standards (FIPS) codes for county as the standard in this volume (see Appendix C for Wyoming specific codes).

- CoC requires the use of FIPS county codes as their standard, plus the special codes 998 and 999. However, the FORDS manual also provides for use of geocodes for countries of residence outside the United States and Canada to be used in this field.
- NPCR requires the use of FIPS codes for counties in the United States, plus the special code 999, starting with cancers diagnosed on or after January 1, 2002.

RACE AND ETHNICITY

Race and ethnicity are two of the most important data items to epidemiologists who investigate cancer. Differences in incidence rates among ethnic groups generate hypotheses for research. The National Cancer Institute has recognized the need to better explain the cancer burden in racial/ethnic minorities and is concerned with research on the full diversity of the U.S. population.

Race

Race code documentation must be supported by text documentation for those cases where there is conflicting information. A text statement indicating patient's race is required. Text validation should be entered in the physical exam text field.

Cases that lack supporting text documentation may be returned as queries and counted as discrepancies.

January 1, 2004 and Forward

Effective with cases diagnosed January 1, 2004 forward, apply the following SEER race coding guideline:

Races (and ethnicity) are defined by specific physical, heredity and cultural traditions or origins, not necessarily by birthplace, place of residence, or citizenship. 'Origin' is defined by the Census Bureau as the heritage, nationality group, lineage, or in some cases, the country of birth of the person or the person's parents or ancestors before their arrival in the United States.

1. All resources in the facility, including the medical record, face-sheet, physician and nursing notes, photographs, and any other sources, must be used to determine race. If a facility does not print race in the medical record but does maintain it in electronic form, the electronic data must also be reviewed.
2. Record the primary race(s) of the patient in fields Race 1, Race 2, Race 3, Race 4, and Race 5. The five race fields allow for the coding of multiple races consistent with the Census 2000. Rules 2 - 8 further specify how to code Race 1, Race 2, Race 3, Race 4 and Race 5. See the editing guidelines that follow for further instructions. If a person's race is a combination of white and any other race(s), code to the appropriate other race(s) first and code white in the next race field.
3. The fields Place of Birth, Race, Marital Status, Name, Maiden Name, and Hispanic Origin are inter-related. Use the following guidelines in order:
 - a. Code the patient's stated race, if possible.
 - b. If the patient's race is determined on the basis of the races of relatives, there is no priority to coding race, other than to list the non-white race(s) first
 - c. If no race is stated in the medical record, or if the stated race cannot be coded, review the documentation for a statement of a race category.

d. If race is unknown or not stated in the medical record and birth place is recorded, in some cases race may be inferred from the nationality. Refer to Appendix W "Race and Nationality Descriptions from the 2000 Census and Bureau of Vital Statistics" to identify nationalities from which race codes may be inferred.

e. Use of patient name in determining race.

4. Death certificate information may be used to supplement antemortem race information only when race is coded unknown in the patient record or when the death certificate information is more specific.

For cases diagnosed prior to January 1, 2000, only the first race field is to be completed and patients of mixed parentage are to be classified according to the race or ethnicity of the mother.

For cases diagnosed January 1, 2000 and later, this no longer applies. Enter each race given. For cases diagnosed prior to January 1, 2004, no "primary" race is designated, and multiple races may be listed in any order, consistent with the 2000 Census.

Ethnicity

SPANISH/HISPANIC ORIGIN (HISPANIC ETHNICITY)

The primary source for coding is an ethnic identifier stated in the medical record.

Procedures for determining ethnicity include:

- Recording ethnicity from information found in the medical record.
- Recording ethnicity based on a combination of patient demographic information that may include last name, maiden name, birthplace, or a statement of ethnicity in the record.

The Spanish/Hispanic Origin field is for identifying patients of Spanish or Hispanic origin or descent. Coding is independent of the Race field, since persons of Hispanic origin might be described as white, black, or some other race in the medical record. Spanish origin is not the same as birth in a Spanish language country. Birthplace might provide guidance in determining the correct code, but do not rely on it exclusively. Information about birthplace is entered separately.

General Coding Instructions for Reporting Ethnicity

1. Coding Spanish Surname or Origin is not dependent on race. A person of Spanish descent may be white, black, or any other race.
2. Portuguese, Brazilians and Filipinos are not Spanish; code non-Spanish (code '0').
3. All information should be used to determine the Spanish/Hispanic Origin including the stated ethnicity in the medical record, stated Hispanic origin on the death certificate, birthplace, information about life history and/or language spoken found in the abstracting process and a last name and maiden name found on a list of Hispanic/Spanish names. Assign code '7' when the only evidence of the patient's Hispanic origin is a surname or maiden name and there is no evidence that the patient is not Hispanic. Code '7' is ordinarily for central registry use only. If the origin is not stated in the medical record and the hospital registry does not have a list of Hispanic surnames, assign code '9,' "Unknown whether Spanish/Hispanic or not." Code '7' was adapted for use effective with January 1, 1994 diagnoses.

OCCUPATION AND INDUSTRY

Information on the occupation and industry of cancer patients can be used in research on possible links between workplace exposures and cancer. Occupation and industry information from the central registry is often used by researchers as a partial proxy indicator of socioeconomic status. Specific occupational information can also help identify a patient being reported by multiple hospitals in different ways.

Data on usual occupation and industry are unavailable in an unknown, but significant, proportion of medical records. Even when available, the quality of the data in the medical record is generally untested and often limited to less useful information such as —retired.

Effort should be made to record the occupation and the industry in which the patient **works or worked**, regardless of whether the patient was employed at the time of admission. **Ideally, the information should pertain to the longest held job.** Review all admissions in the patient's medical record, including those before the diagnosis of cancer, and record the best information available. It is not necessary to request parts of the medical record predating diagnosis solely to determine occupation and industry, but review all admissions in the parts pulled for abstracting.

- Do not leave these fields empty.
- Always enter supporting documentation in an appropriate text field

Occupation

Enter any available information about the kind of work performed (e.g., television repairman, chemistry teacher, bookkeeper, construction worker), up to 40 characters associated with the longest held occupation.

- Avoid the use of abbreviations where possible.
- If an occupation is recorded in the chart without mention of its being the longest held, indicate this with an asterisk next to the entry (e.g., insurance salesman*).
- If the patient is not employed, try to determine the longest held occupation.
- Do not enter a term such as "homemaker," "student," "retired," "unemployed or "disabled" unless no other information can be obtained.
- If no information is available, enter "NR" (not recorded). Do not leave this field blank.

Industry

Enter any available information about the industry associated with the longest held occupation (e.g., automotive repair, junior high school, trucking, house construction), up to 40 characters.

If the chart identifies the employer's name but does not describe the industry, enter the employer's name (and city if available). If only an abbreviation is given for the industry or employer (e.g., PERS, USD, or FDIC), record it even if it's meaning is not known. However, avoid the use of abbreviations where possible.

The following rules and guidelines apply to the occupation and industry fields:

No occupation/industry information	Enter "Unknown" in both the Usual Occupation and Usual Industry/ Type of Business fields.	Do not use the term "none" which could mean that the individual has never worked.
Incomplete information	Enter Unknown in the Usual Industry field if information on occupation, but not industry, is available. If only information on industry is available, enter Unknown for Usual Occupation	You need not have specific information in both fields if it is unavailable Do not use the term "none" which could mean that the individual has never worked.
More than one occupation/industry	Try to determine the occupation/industry held during most of the patient's life.	
Only a current occupation/industry listed	If you know only the most recent or current occupation/ industry, record this information.	
Housewives/persons at home	If no information is available for an occupation outside the home enter Housewife/ husband in the Usual Occupation field. Enter "At Home or Own Home" in the Usual Industry field.	

STAGING SYSTEMS

Cancer Staging

Historically, four major staging schemes have been widely used in cancer registries in the United States. The schemes, AJCC TNM, SEER Extent of Disease, SEER Historic Stage, and SEER Summary Stage, differ in complexity, purpose, structure, rules, and definitions. AJCC TNM staging provides forward flexibility and clinical utility. SEER EOD provides longitudinal stability for epidemiological studies. And, SEER Historic and Summary Stage provide population surveillance staging capability. In January 2004, the Collaborative Staging System was introduced to reduce duplication of effort and provide a common staging schema for registry use and from which the other major staging categories could be electronically derived. All standard setters in the United States required the use of the Collaborative Staging

System version 1 for cases diagnosed January 1, 2004- December 31, 2009, but not every standard setter required every data element. CS version 2 is based on AJCC 7th edition and was renamed the Collaborative Stage (CS) Data Collection System. CS version 2 is effective for cases diagnosed January 1, 2010, and later.

AJCC Staging

Both clinical and pathologic staging fields are collected by the WCSP. If you have enough information to specifically stage a case clinically and pathologically, then both stages should be specifically reported. Use the codes for "unknown" and "not applicable" to complete the staging fields whenever appropriate.

The WCSP is not concerned with who staged the case, as long as the information is correct and is coded correctly. The "Staged By" fields are not collected by the WCSP. If the coded staging information in the AJCC fields is known to be incorrect or questionable, please explain the situation in a Staging narrative text fields.

None of the TNM fields may be left empty for pre-2004 diagnoses.

Collaborative Stage

The Collaborative Stage (CS) data set is a combination of data items (most of which have traditionally been collected as a part of regular cancer surveillance activities) that include tumor size, extension, lymph node status, metastatic status, evaluation fields describing the hierarchy of the data collected, and relevant site-specific information. This unified data set was specifically designed for cancer reporting and includes an algorithm which derives three different staging systems from the data collected and resolves subtle staging rule differences. The systems for which staging currently can be derived include AJCC TNM 6th Edition, AJCC TNM 7th Edition, SEER Summary Stage 1977, and SEER Summary Stage 2000.

APPENDIX E

1980 CENSUS LIST OF SPANISH SURNAMES

Instructions for Using 1980 Census List of Spanish Surnames

This list can be used to code last names in most areas of the United States.

- All names are listed alphabetically in upper-case letters without any blanks or spaces. For example, names such as "De Leon," "De la Torre," or "La Luz" are shown as "DELEON," "DELATORRE," or "LALUZ."
- Spanish surnames often have accent marks (´) or a tilde (~) over the n (ñ). Disregard accent marks or tildes as these marks have been omitted from the list. For example, the names "Martínez" with an accent (´) and "Nuñez" with a tilde (~) are listed as "MARTINEZ" and "NUNEZ."
- If a surname consists of two names, separated by a dash or a space, code the person as Spanish if either name appears on the list. For example, for "Collins-Garcia," check "COLLINS" on the list. Since it does not appear, check for "GARCIA." If the name appeared as "Garcia-Collins," then "GARCIA" would be checked first.
- If the surname is of the form "Lopez R.," ignore the initial and look up the name, "LOPEZ."
- If the surname consists of two surnames separated by "de" such as "Perez de Seda," first look up the name written first, i.e., "PEREZ;" if it is not on the list, look up the final name including the word "de," i.e., "DESEDA;" if it is still not on the list, look up the final name without the word "de," i.e., "SEDA."
- Surnames written with spaces which begin "de," "de la," or "del," such as "de la Cruz," should be looked up with and without the prefix words, i.e., "CRUZ," "LACRUZ," and "DELACRUZ." If any of the combinations is listed, the surname should be considered Spanish.

APPENDIX F

PROFESSIONAL SERVICES CONTRACT Between the Wyoming Department of Health, Division of Preventive Health and Safety, Wyoming Cancer Surveillance Program and «Hospital»

1. Parties. The parties to this Contract are the Wyoming Department of Health, Preventive Health & Safety Division, 6101 Yellowstone Road, Room 510, Cheyenne, WY 82002; Wyoming Cancer Surveillance Program, 6101 Yellowstone Road, Room 259A, Cheyenne, WY 82002 who is the Agency, and «Hospital», «Street», «City», «State», «Zip», who is the Contractor.

2. Purpose of Contract. The purpose of this contract is for Contractor to choose which registration option it prefers with regard to cancer case reporting and abstracting.

3. Term of Contract and Required Approvals. This Contract is effective when all parties have executed it and all required approvals have been granted. The term of the Contract is from the last date affixed to this contract through December 31, 2010. All services shall be completed during this term. This Contract may be renewed annually by agreement of both parties in writing and subject to the required approvals. There is no right or expectation of renewal and any renewal will be determined at the discretion of the Agency.

By law, contracts for professional or other services must be approved as to form by the Attorney General and approved by A&I Procurement, Wyo. Stat. ' 9-1-403(b)(v), and all contracts for services costing over one thousand five hundred dollars (\$1,500.00) must be approved by the Governor or his designee as well, Wyo. Stat. ' 9-2-1016(b)(iv).

4. Payment. Contractor agrees to pay the Agency, when warranted based upon which option Contractor chooses, for the services described in Attachment A. The total payment under this Contract shall not exceed Twenty Five Dollars (\$25.00) per cancer case abstracted by Agency as supported by the Rules and Regulations governing the Agency, Rev. 1998 (see Attachment B). Payment, when warranted, will be made annually upon invoice or adjusted to not more than quarterly at written request by Contractor. Billing period shall be January 1 through December 31 of each calendar year. No payment shall be made for services performed before the date upon which the last required signature is affixed to this Contract.

Professional Services Contract Between the Wyoming Department of Health, Preventive Health & Safety Division, Wyoming Cancer Surveillance Program and «Hospital»

6. **Responsibilities of Contractor.** The services to be provided by Contractor are described in Attachment A, which is attached and made a part of this Contract. Contractor may subcontract with a qualified contractor which meets Agency standards; however the responsibilities of this Contract remain with the signing Contractor.

7. **Responsibilities of Agency.** The services to be provided by Agency are described in Attachment A, which is attached and made a part of this Contract.

8. **Special Provisions.**

a. **Confidentiality.** All information obtained by either Agency or Contractor through the performance of duties under this Contract shall be treated by both parties as confidential information and shall not be used in any manner except as necessary for the proper discharge of obligations of this contract.

b. **Health Information Portability and Accountability Act (HIPAA).** Permitted disclosure to Agency under the terms of HIPAA, Department of Health and Human Services Office for Civil Rights, 45 CFR Part 160 and 164, revised April 17, 2003 are made a part of this Contract. Specific attention is made but not limited to:

A ' 164.502...(1) Permitted uses and disclosures. A covered entity is permitted to use or disclose protected health information as follows...(iii) Incident to a use or disclosure otherwise permitted or required by this subpart...(i) As permitted by and in compliance with this section, ' 164.512, or ' 164.514(e), (f), or (g).@

A '164.512...Standard: uses and disclosures for public health activities. (1) Permitted disclosures. A covered entity may disclose protected health information for the public health activities and purposes described in this paragraph to: (i) A public health authority that is authorized by law to collect or receive such information for the purpose of preventing or controlling disease, injury, or disability, including, but not limited to, the reporting of disease, injury, vital events such as birth, death, and the conduct of public health surveillance, public health investigations, and public health interventions.@

c. **Monitor Activities**Agency shall have the right to monitor all Contract related activities of Contractor and all subcontractors. This shall include, but not be limited to, quality control, timeliness of abstracting and submitting data and work in progress.

d. Ownership of Documents/Work Product/Materials. All reports, data, studies, work product, and other materials prepared by the Contractor pursuant to performance under the terms and conditions of this Contract shall become the property of the Agency. The Agency shall have unrestricted authority to publish, disclose, distribute, and otherwise use in whole or in part any reports, data, or other materials prepared by the Contractor under this Contract. Until the Agency publishes, discloses, distributes, uses, or makes any of the information developed or compiled by the Contractor public, Contractor agrees that the information is confidential and, therefore, will not disclose it.

e. No Finder's Fees. No finder's fee, employment agency fee, or other such fee related to the procurement of this Contract shall be paid by either party.

f. Nondiscrimination. The Contractor shall comply with the Civil Rights Act of 1964, the Wyoming Fair Employment Practices Act (Wyo. Stat. ' 27-9-105 *et seq.*), the Americans With Disabilities Act (ADA), 42 U.S.C. 12101, *et seq.*, and the Age Discrimination Act of 1975. The Contractor shall not discriminate against any individual on the grounds of age, sex, color, race, religion, national origin or disability in connection with the performance of this Contract. The Contractor shall include the provisions of this section in every subcontract awarded over Ten Thousand Dollars (\$10,000.00) so that such provisions are binding on each subcontractor.

g. Publicity. Any publicity given to the program or services provided herein, including, but not limited to, notices, information, pamphlets, press releases, research, reports, signs, and similar public notices prepared by or for the Contractor, shall identify the Agency as the sponsoring agency and shall not be released without prior written approval from the Agency.

8. General Provisions.

a. Amendments. Any changes, modifications, revisions or amendments to this Contract which are mutually agreed upon by the parties to this Contract shall be incorporated by written instrument, executed and signed by all parties to this Contract.

b. Applicable Law/Venue. The construction, interpretation and enforcement of this Contract shall be governed by the laws of the State of Wyoming. The Courts of the State of Wyoming shall have jurisdiction over this Contract and the parties, and the venue shall be the First Judicial District, Laramie County, Wyoming. The parties intend and agree that the State of Wyoming and the Agency do not waive sovereign immunity by entering into this Contract and specifically retain immunity and all defenses available to them as sovereigns pursuant to Wyo. Stat. ' 1-39-104(a) and all other applicable law.

c. **Assignment/Contract Not Used as Collateral.** Neither party shall assign or otherwise transfer any of the rights or delegate any of the duties set forth in this Contract without the prior written consent of the other party. The Contractor shall not use this Contract, or any portion thereof, for collateral for any financial obligation without the prior written permission of the Agency

d. **Audit/Access to Records.** The Agency and any of its representatives shall have access to any books, documents, papers, and records of the Contractor which are pertinent to this Contract. The Contractor shall, immediately upon receiving written instruction from the Agency, provide to any independent auditor, accountant, or accounting firm, all books, documents, papers and records of the Contractor which are pertinent to this Contract. The Contractor shall cooperate fully with any such independent auditor, accountant, or accounting firm, during the entire course of any audit authorized by the Agency.

e. **Award of Related Contracts.** The Agency may undertake or award supplemental or successor contracts for work related to this Contract. The Contractor shall cooperate fully with other contractors and the Agency in all such cases.

f. **Certificate of Good Standing.** Contractor shall provide Certificate of Good Standing verifying compliance with the unemployment insurance and workers' compensation programs prior to performing work under this Contract.

g. **Compliance with Law.** Both the Contractor and Agency shall keep informed of and comply with all applicable federal, state and local laws and regulations in the performance of this Contract.

h. **Entirety of Contract.** This Contract, consisting of seven (7) pages; Attachment A, consisting of two (2) pages; and Attachment B, consisting of one (1) page, represents the entire and integrated Contract between the parties and supersedes all prior negotiations, representations, and agreements, whether written or oral.

i. Force Majeure. Neither party shall be liable for failure to perform under this Contract if such failure to perform arises out of causes beyond the control and without the fault or negligence of the nonperforming party. Such causes may include, but are not limited to, acts of God or the public enemy, fires, floods, epidemics, quarantine restrictions, freight embargoes, and unusually severe weather. This provision shall become effective only if the party failing to perform immediately notifies the other party of the extent and nature of the problem, limits delay in performance to that required by the event, and takes all reasonable steps to minimize delays. This provision shall not be effective unless the failure to perform is beyond the control and without the fault or negligence of the nonperforming party. The parties intend and agree that the State of Wyoming and Agency do not waive sovereign immunity by entering into this Contract and specifically retain immunity and all defenses available to them as sovereigns pursuant to Wyo. Stat. ' 1-39-104(a) and all other applicable law.

j. Indemnification. The Contractor shall indemnify, defend and hold harmless the State, the Agency, and their officers, agents, employees, successors and assignees from any and all claims, lawsuits, losses and liability arising out of Contractor's failure to perform any of Contractor's duties and obligations hereunder or in connection with the negligent performance of Contractor's duties or obligations, including but not limited to any claims, lawsuits, losses or liability arising out of Contractor's malpractice.

k. Independent Contractor. The Contractor shall function as an independent contractor for the purposes of this Contract, and shall not be considered an employee of the State of Wyoming for any purpose. The Contractor shall assume sole responsibility for any debts or liabilities that may be incurred by the Contractor in fulfilling the terms of this Contract, and shall be solely responsible for the payment of all federal, state and local taxes which may accrue because of this Contract. Nothing in this Contract shall be interpreted as authorizing the Contractor or its agents and/or employees to act as an agent or representative for or on behalf of the State of Wyoming or the Agency, or to incur any obligation of any kind on the behalf of the State of Wyoming or the Agency. The Contractor agrees that no health/hospitalization benefits, workers' compensation and/or similar benefits available to State of Wyoming employees will inure to the benefit of the Contractor or the Contractor's agents and/or employees as a result of this Contract.

l. Notices. All notices arising out of, or from, the provisions of this contract shall be in writing and given to the parties at the address provided under this Contract either by regular mail, facsimile, e-mail, or delivery in person.

m. Notice and Approval of Proposed Sale or Transfer of the Contractor. The Contractor shall provide the Agency with the earliest possible advance notice of any proposed sale or transfer or any proposed merger or consolidation of the assets of the Contractor. Such notice shall be provided in accordance with the notice provision of this Contract.

n. Prior Approval. This Contract shall not be binding upon either party, no services shall be performed under the terms of this Contract, and the Wyoming State Auditor shall not draw warrants for payment on this Contract, until this Contract has been reduced to writing, approved as to form by the Office of the Attorney General, filed with and approved by A&I Procurement, and approved by the Governor of the State of Wyoming or his designee if required by Wyo. Stat. ' 9-2-1016(b)(iv)(D).

o. Severability. Should any portion of this Contract be judicially determined to be illegal or unenforceable, the remainder of the Contract shall continue in full force and effect, and either party may renegotiate the terms affected by the severance.

p. Sovereign Immunity. The State of Wyoming and the Agency do not waive sovereign immunity by entering into this Contract and specifically retain immunity and all defenses available to them as sovereigns pursuant to Wyo. Stat. ' 1-39-104(a) and all other state law.

q. Taxes. The Contractor shall pay all taxes and other such amounts required by federal, state and local law, including but not limited to federal and social security taxes, workers' compensation, unemployment insurance and sales taxes.

r. Termination of Contract. This contract may be terminated, without cause by either party with thirty (30) days written notice. This Contract may be terminated immediately for cause if Contractor fails to perform in accordance with the terms of this Contract.

s. **Third Party Beneficiary Rights.** The parties do not intend to create in any other individual or entity the status of third party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties and obligations contained in this, Contract shall operate only between the parties to this Contract, and shall inure solely to the benefit of the parties to this Contract. The provisions of this Contract are intended only to assist the parties in determining and performing their obligations under this Contract. The parties to this Contract intend and expressly agree that only parties signatory to this Contract shall have any legal or equitable right to seek to enforce this Contract, to seek any remedy arising out of a party's performance or failure to perform any term or condition of this contract, or to bring an action for the breach of this Contract.

t. **Time is of the Essence.** Time is of the essence in all provisions of the Contract.

u. **Titles Not Controlling.** Titles of paragraphs are for reference only and shall not be used to construe the language in this Contract.

v. **Waiver.** The waiver of any breach of any term or condition in this Contract shall not be deemed a waiver of any prior or subsequent breach. Failure to object to a breach shall not constitute a waiver.

9. **Options.** By selecting **one** of the options set out below, Contractor agrees to abide by the duties set out in Attachment A and the terms of the Wyoming Central Tumor Registry (WCSP) in effect, 1998. See Attachment B to this contract for pertinent segments of these rules. The statutory authority for these rules is Wyo. Stat. ' 35-1-240(b) and P.L. 102-515.

a. **Option One.** Contractor elects to submit completed cancer registration to the Agency, Wyoming Cancer Surveillance Program.

By checking **option one** in the Contractor signature block, Contractor wishes to exercise the option to abstract and maintain the Contractor cancer data base by abstracting the information for Contractor hospital or contracting with a separate Contractor to do this.

Completed cancer data will be submitted to the Agency, Wyoming Cancer Surveillance Program, in a mutually agreed upon format and in a timely manner. New case registrations shall be reported to the Agency on a monthly basis.

b. Option Two. Contractor elects to have Agency, Wyoming Cancer Surveillance Program, and abstract cancer data.

By checking **option two** in the Contractor signature block, Contractor wishes to exercise the option to have the Agency, Wyoming Cancer Surveillance Program, maintain Contractor cancer case abstracting.

This is done in accordance with the Standards, Rules and Regulations for Wyoming Central Tumor Registry (WCSP), revised 1998, in which Contractor agrees to pay the assessed fee of twenty-five dollars (\$25.00) per new case and submit all required documentation to Agency,

Wyoming Cancer Surveillance Program, on a monthly basis for case registration to be completed by Agency.

10. Signatures. By signing this Contract, the parties certify that they have read and understood it, that they agree to be bound by the terms of the Contract, that they have the authority to sign it.

This Contract is not binding on either party until approved by A&I Procurement and the Governor of the State of Wyoming or his designee, if required by Wyo. Stat. ' 9-2-1016(b)(iv).

The effective date of this Contract is the date of the signature last affixed to this page.

Professional Services Contract Between the Wyoming Department of Health, Preventive Health & Safety Division, Wyoming Cancer Surveillance Program and «Hospital»

Attachment A:

Option One (1) Duties of Contractor:

- Shall perform case finding to determine all patients with a new diagnosis of cancer or history of cancer which meets the case eligibility criteria.
- Shall provide to Agency, within thirty (30) days of notification by Agency, a current listing (disease index) of cancer cases by ICD-9 codes which includes the diagnosis of cancer and history of cancer. A complete disease index shall be provided to Agency by February 1, 2010. The Agency shall be authorized to inspect same to verify the completeness of cancer reporting.
- Shall perform patient follow-up on all living patients annually per American College of Surgeons guidelines. Follow-up shall be submitted to the Agency on a monthly basis when mutually agreed upon.
- Shall cooperate with Agency in any area arising that is not explicitly noted here that will enhance the securing of accurate cancer information.
- Shall abstract cancer data.
- Shall send in first six (6) months year 2009 abstracted cases (January through June of 2009) on or before April 1, 2010.
- Shall send the second six (6) months of year 2009 abstracted cases (July through December of 2009) on or before July 1, 2010.

NOTE: First six months of 2009 cases not received on or before April 1, 2010 and second six months 2009 cases not received on or before July 1, 2010 will be abstracted by the WCSP with a designated fee per cancer case of twenty-five dollars (\$25.00) to be assessed for each case abstracted by the WCSP.

Option Two (2) Duties of Contractor:

- Shall perform case finding to determine all patients with a new diagnosis of cancer or history of cancer which meets the case eligibility criteria.

- Shall provide to Agency, within thirty (30) days of notification by Agency, a current listing (disease index) of cancer cases by ICD-9 codes which includes the diagnosis of cancer and history of cancer. A complete disease index shall be

provided to the Agency by February 1, 2010. The Agency shall be authorized to inspect same to verify the completeness of cancer reporting.

- Shall cooperate with Agency in any area arising that is not explicitly noted here that will enhance the securing of accurate cancer information.
- Mail all required documentation (SEE ATTACHEMENT ____: “Needed Documentation”) to the Agency on a monthly basis for case registration to be completed within the Agency.
- Pay the designated fee per cancer case of Twenty-five dollars (\$25.00).
- Send in all required documentation for 2009 cases on or before March 31, 2010.

Duties of Agency:

- Provide training to Contractor staff and/or their designee(s) in accordance with the Standards, Rules and Regulations for the Wyoming Central Tumor Registry (d/b/a Wyoming Cancer Surveillance Program), Rev. 1998 and in effect.
- Process data, perform quality assurance activities, and reconcile discrepancies.
- Provide data/statistical analysis upon request.
- Provide feedback to Contractor on abstracting data quality.
- Provide technical support to Contractor in abstracting and software concerns.
- Provide assistance to Contractor in any area that is not explicitly noted here that will enhance the securing of accurate cancer information.

Attachment B:

Wyoming Cancer Surveillance Program Rules and Regulations in effect, 1998, i.e. in part but not limited to:

Chapter 1, General Provisions, Section 1. Authority. The statutory authority for these rules is W.S. ' 35-1-240(b) and P.L. 102-515.

Chapter 2, Uniform Registration and Reporting of Cancer Cases, Section 4. Registration Options.

(a) All hospitals shall select one of the following options relative to the registration of cancer patients seen in their hospital:

(i) Option 1.

(A) Submit completed registration to the State Agency of all cases within the facility which meet case eligibility criteria. New case registrations shall be reported to the State Agency on a monthly basis.

(ii) Option 2.

(A) Pay the designated fee per cancer case as defined in Chapter 3, Section 1.

(B) Mail all required documentation to the State Agency on a monthly basis for case registration to be completed within the State Agency.

Chapter 3, Registration Fees, Section 1. Fee Assessment (a) and (b) only set out here.

(a) Fees shall be assessed only to those hospitals which select option 2 as defined in Chapter 2, Section 4(ii).

(b) Hospitals which select option 2 as defined in Chapter 2, Section 4(ii), shall be assessed a fee of twenty-five dollars (\$25) per new case.
